National Grid is inviting you to an Informal Open House

Learn More: Palmer to Ware Improvement Project

National Grid's Palmer to Ware Improvement Project is a proposed transmission line project that will upgrade a deteriorating electric transmission line. The upgrade will focus on portions of the 10.35-mile-long segment of overhead power lines that run through Palmer, Ware, and West Brookfield. Once upgraded, the newly rebuilt transmission line will provide enhanced electric reliability for the region.

National Grid is hosting Open Houses for the Palmer to Ware Improvement Project. We encourage you to join us to learn more about the project.

If you are unable to join us at the in-person event and are interested in learning more about the project, please email info@O15nproject.com to set up a meeting with a member of our project team.
